Providing Quality Dental Care in Beautiful Thirsk

We are a forward-thinking, modern dental practice providing high quality dental care for our patients. We are very proud of the service we provide and of the wonderful feedback we receive.

We aim to make your dental visit as stress-free as possible. This starts in our comfortable waiting room with music, magazines and our friendly front-of-house staff. In our treatment rooms, our skilled dentists and hygienists along with our friendly support staff will help you feel at ease during your appointment.

We will take the time to make sure you feel properly cared for, you have all the information you need, appointments booked at convenient times and a written copy of any treatment which may be planned.

Really good and friendly service and highly efficient. If you have to go to a dentist, this is highly recommended!

AT from Sowerby

What happens at your first appointment?

Your first appointment would usually be a full Dental Health Check.

We ask if you have any particular problems, if there's anything you'd like to change about your smile, or anything you'd like to work towards with your dental health.

We check areas outside and inside the mouth, including your jaw joint, muscles and glands. We carry out a visual check for mouth cancer, and check the health of soft tissues including your cheeks, tongue and palate.

We check the health of your gums and teeth, and check the condition of any existing fillings, crowns or other restorations. We may take X-rays if we need to check your teeth in more detail.

We will assess your current risk level for mouth cancer and for dental disease, and discuss how you can help to reduce your risk of future problems.

We review all this with you, in order to agree a personalised, comprehensive plan on how to manage your dental health in a way that works for you, and which achieves your dental health goals. We will also produce a printed, costed Treatment Plan for you to keep.

He explains everything and answers all my questions with infinite patience.

What we Offer

We know your smile and your dental health are important. In addition to high quality general dental care, we also offer:

Dental Implants

A great way to replace missing teeth, so you can eat the things you like

Teeth Whitening

A simple, effective and predictable way to lighten your smile

Veneers and Cosmetic Dentistry

Bespoke cosmetic dental treatments so you can smile with confidence

USEFUL INFORMATION

Privacy and Confidentiality: We need to store and process your personal information to provide dental care. We ensure confidentiality is strictly maintained.
We may use your contact details to provide appointment reminders by SMS or email.

Cancellations: We understand that appointments may need to be cancelled. We ask for 1 full working day's notice if you wish to cancel.

Complaints: We hope you never have reason to complain. However, we always aim to resolve any issues swiftly and amicably.

For more information on all these policies, go to
